

PHILIPS

Air Purifier

Series 1000

Night sensing mode

Room size: up to 60 m²

Partical CADR: 260 m³/h

VitaShield IPS

AC1211/20

Healthier air, always

Cleaner Nights, Energized Days

Night sensing mode is a new technology especially designed for your bedroom. Be reassured of constant air quality monitoring and clean air delivery while you sleep. It is quiet as whisper to help you and your family sleep better.

Healthy Air

- Advanced NanoProtect Filter delivers all-around protection
- Special auto-purification mode effectively removes pollution
- Superior Purification that can be applied to max 31m² room

Always

- Quieter and constant clean air delivery during sleep
- Healthy air protect alert for filter lifetime with accuracy
- Certified or tested by ECARF and Airmid
- Real-time air quality feedback
- Child lock prevents unintended changes in settings

Design for you

- Touch UI with display

Highlights

Filter HEPA Series 1

The extra thick NanoProtect HEPA is designed for superior purification efficiency and lifetime against airborne particles.

Auto-purification mode

Indoor PM2.5 levels can increase far above local guidelines because of outdoor pollution or daily activities like cooking, cleaning etc. The smart air sensor can detect PM2.5 levels and boost the air purifier's speed to deal with the pollution.

Night sensing mode

Night sensing mode is developed especially for your bedroom; The air purifier rapidly prepares your bedroom air for sleep and constantly monitors your bedroom air quality, delivering clean air while you sleep. The dimmed and/or switched off lights and the low sound help you and your family sleep better.

Healthy air protect

The healthy air protect alert lets you know promptly when it is time to replace the filter. If the filter is not replaced promptly, the appliance stops functioning - to avoid ineffective purification. So you are assured of healthier air always.

Child lock

Child lock prevents unintended changes in settings

Real-time air quality feedback

The color ring on dashboard provides a clear view on air quality by 4-step color, ranging from blue (good allergen & particle level) to red (bad allergen & particle level).

Certification

Certified or tested by ECARF and Airmid*

VitaShield IPS

VitaShield IPS

VitaShield IPS with its aerodynamic design and NanoProtect Pro Filter has a boosted clean air delivery rate up to 260m³/hr. It can effectively remove ultra-fine particles as small as 0.02µm. Also it filters out harmful gases such as formaldehyde and TVOC.

Specifications

Performance

Room size: Up to 60 m²
CADR (Smoke): 260 m³/h
Filters out PM2.5: 99 %
Filters out H1N1 Virus: 99.9 %
Filters out bacteria: 99.9 %
Sound Pressure: 33 dB

Features

Particle sensor
Fan speed: 1,2,3,-Turbo

Design and finishing

Color(s): White
Color of control panel: Blue
Control panel type: Touch

Technical specifications

Voltage: 220 V
Frequency: 50 Hz
Cord length: 1.8 m
Power: 50 W

Weight and dimensions

Dimension of product (LxWxH): 541 x 325 x 211

Country of origin

Made in: China

Sustainability

Packaging: > 90% recycled materials
User manual: 100% recycled paper

Service

2-year guarantee
