

JOHARI[®]
medtech

Leading manufacturer of Medical Devices for
Physiotherapy, Sports Medicine & Rehabilitation

Introducing

Physio Kit

A DUAL THERAPY BACKPACK

Cutting Edge Technology

Ultrasound - 1 MHz
IFT | TENS | EMS
Russian

US FDA CLEARED
Ultrasound and
Electrotherapy

Deliver Quality **Physio** Treatment in Home Healthcare

Physio Kit

US FDA Cleared Devices to Quickly and Conveniently deliver the best treatment in pain conditions and promote tissue healing at HOME

Stim³

Prove your professional practice with most efficient technology in hand and deliver IFT, TENS & EMS.

Independent 4 channels

IFT Four pole application

5000 Hz Frequency

LCD Digital display

Battery Operated

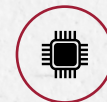

Vector effect 100% modulation

JUS-1

Easy to use 1 MHz ultrasound provides continuous and pulsed treatment, highly effective to increase local blood flow, reduce swelling, chronic inflammation and promote healing process.

Microprocessor Controlled Unit

Continuous and Pulsed Mode

Digital Display of Selections

Now backpack your clinic ...
... deliver the quality treatment at home

Customize treatments. Easy to setup protocols :

Gate Control Protocol / Opiate Protocol

Immediate and Lasting Analgesic effect in chronic & acute pain conditions, to facilitate functional movement during ADLs.

Trigger Point Protocol

Deactivate TP activity to facilitate functional movement

CHF / Endurance Protocol

Increase endurance of muscle group to improve ADLs, stability, postural tone.

Explosive Protocols

Increase contraction power and speed of muscle groups to improve stability.

Functional Exercise

Increase ability of muscle group to contract and improve muscle recruitment.

Sports Medicine

Increase the stretchiness of muscles and healing rate. Treat musculoskeletal problems like inflammation from injuries, muscles sprains or runners knee.

Pre-operative and post-operative physiotherapeutic intervention
